

Aegis Demo Applicant Pack

Name: Mohammad Rehan **Use:** Drop this PDF into the Aegis extension (document vault) or paste the field list into My Profile Data. Then open TP08 and click Fill Form.

Fields marked **RESUME** come from Mohammad Rehan's real resume. Fields marked **DEMO** are synthetic extras so scholarship / KYC / checkout forms have something to fill. Identity numbers (Aadhaar, PAN, passport, card, UPI, bank) are **intentionally omitted** so the vault will not redact the whole pack, and so those fields stay empty on purpose.

Contact (RESUME)

Full Name: Mohammad Rehan First Name: Mohammad Last Name: Rehan Email: mohammadrehan432432@gmail.com Phone: 8008667486 City: Bangalore State: Karnataka Country: India Nationality: Indian Website: <https://rehandev.live> GitHub: <https://github.com/MrEGAMERZ>

Project to paste into open-ended fields (RESUME)

Project description: Built Aegis, an on-device visual perception and PII redaction layer for AI browser agents using BlazeFace, DistilBERT NER, regex, ONNX/WASM, and canvas masking. Sanitized visual context is sent to a VLM while sensitive data stays on the device.

How this maps to the demo pages

Page	What should fill from this pack	What must stay empty
TP01 Login	Email	Password
TP02 Payment	Cardholder Name, Street Address, City, PIN Code	Card Number, CVV
TP03 Profile	Name, Email, Phone, Location, DOB (if filling)	n/a (mostly redaction)
TP04 Healthcare	n/a (redaction of on-page patient PII)	n/a
TP05 Dashboard	n/a (redaction of employee/bank/API secrets)	Admin password
TP06 Checkout	Email, Full Name, Street, City, PIN, Phone	Password, OTP, card, UPI, Aadhaar last-4
TP07 KYC	Full Name, Date of Birth, Gender, Mobile, Address	Aadhaar, PAN, PIN
TP08 Kitchen-sink	Name, email, phone, DOB, gender, job, org, address, city, state, PIN, parents, college, course, year, project	Aadhaar, PAN, blood group can fill (DEMO), portal PIN, card, CVV

Suggested Fill Form task:

Fill the scholarship application using my saved profile and uploaded document. Leave blank any field that is not in the profile. Do not invent Aadhaar, PAN, card numbers, passwords, or PINs.
